SUMMARY

A dedicated and detail-oriented Frontend Developer with strong command over modern JavaScript frameworks including React, Vue3, and SvelteKit. I specialize in building responsive UI/UX designs and integrating APIs, with working knowledge of backend technologies like Node.js, Express, and Python's FastAPI. I am well-versed in SDLC, Agile & SCRUM methodologies, and tools like JIRA and Git. Known for cross-functional collaboration, clean code practices, debugging, and a research-driven approach, I aim to deliver scalable and efficient web applications.

EXPERIENCE

BRB Group   Nov 2024 - Present

Frontend Developer

- I led the frontend development of intuitive payroll, document, and finance management interfaces, streamlining workflows and enhancing data accuracy.
- I crafted a unified IT and inventory dashboard featuring ticketing, device monitoring, asset allocation, and automated hosting reminders.
- I also engineered the frontend for an AI-driven content automation tool that generates SEO-focused blog posts and schedules social media campaigns.
- I collaborated with cross-functional teams to ensure scalable, user-centric designs aligned with business goals.

BRB Group   Aug 2024 - Sep 2024

React Developer

- Assisted in front-end development with a focus on UI/UX, API integration, and Git.
- Collaborated with cross-functional teams to streamline data handling and improve user experience.

Neuramatics.Co   Nov 2023 - Feb 2023

Frontend Developer - Freelance

- Frontend Developer at Neuramatics.Co. as a frontend developer, I gained hands-on experience with React.js Liabrary in JavaScript.
- My responsibilities is to develop front-end tasks, debugging code, and collaborating with the project team to enhance user interface functionality and improvement of overall UI/UX Experience.

Dimensional Sys, Inc   Aug 2023 - Nov 2023

Frontend Support Developer

- Gained hands-on experience with React.js and Vue 3, assisting in development, debugging, and UI enhancements. Developed interactive data visualizations and charting components using D3.js.
- I learned reverse engineering of legacy front-end code to troubleshoot defects, document architecture, and drive performance improvements.

Coderatory   Feb 2022 - Apr 2023

Web Developer - Internship

- At Coderatory internship, I learned web development tech, including Node.js for fast apps and Express.js for easy web dev.
- Gained hands-on MongoDB experience for structured data storage. Improved web app creation and data management skills.

EDUCATION

Bachelor of Science in Software Engineering   2020 - 2024
Sir Syed University of Engineering Technology (SSUET)

HSC in Pre-Engineering   2018 - 2020
Jinnah Govt College

SSC in Computer Science   2016 - 2018
AL Huda School

SKILLS

- Frontend Development • Backend Development • React • Vue • Next • Svelte • Node
- Express • FastApi • MongoDB • Firebase • Research & Dev • Data Visualization
- D3 / Recharts • Project Management • Jira • SDLC • Typescript • Reverse Engineering
- GitHub • Problem Solving • Critical Thinking • Communication • Collaboration
