SUMMARY

A dedicated and detail-oriented Frontend Developer with strong command over modern JavaScript frameworks including React, Vue3, and SvelteKit. I specialize in building responsive UI/UX designs and integrating APIs, with working knowledge of backend technologies like Node.js, Express, and Python's FastAPI. I am well-versed in SDLC, Agile & SCRUM methodologies, and tools like JIRA and Git. Known for cross-functional collaboration, clean code practices, debugging, and a research-driven approach, I aim to deliver scalable and efficient web applications.

TECHNICAL SKILLS

Frontend (React,Vue,Next,Svelte)	**Backend (Node,Express,FastApi)**	**MongoDB**
Data Visualization (D3/Recharts)	**Research & Development**	
GitHub	**Typescript**	**Project Management (Jira,SDLC)**
		Reengineering/Reverse Engineering

PROFESSIONAL EXPERIENCE

Mid-Level React Developer | BRB Group   **Nov 2024 - Present**

I led the frontend development of intuitive payroll, document, and finance management interfaces, streamlining workflows and enhancing data accuracy. I crafted a unified IT and inventory dashboard featuring ticketing, device monitoring, asset allocation, and automated hosting reminders. I also engineered the frontend for an AI-driven content automation tool that generates SEO-focused blog posts and schedules social media campaigns. Throughout, I collaborated with cross-functional teams to ensure scalable, user-centric designs aligned with business goals.

React Development| BRB Group   **Aug 2024 – September 2024**

Assisted in front-end development with a focus on UI/UX, API integration, and Git. Collaborated with cross-functional teams to streamline data handling and improve user experience.

Frontend Developer – Contractual | Neuramatics.Co.   **Nov 2023 - Feb-2024**

Frontend Developer at Neuramatics.Co. as a frontend developer, where I gained hands-on experience with React.js Liabrary in JavaScript. My responsibilities included development in front-end tasks, debugging code, and collaborating with the project team to enhance user interface functionality and improvement of overall UI/UX Experience.

Frontend Support Developer | Dimensional Sys, Inc.   **Aug 2023 - Nov-2023**

Frontend Support Intern at Dimensional Sys, Inc. – Gained hands-on experience with React.js and Vue 3, assisting in development, debugging, and UI enhancements. Developed interactive data visualizations and charting components using D3.js. Where I learned reverse engineering of legacy front-end code to troubleshoot defects, document architecture, and drive performance improvements.

Intern | Coderatory   **Feb 2022 - April 2022**

At Coderatory internship, I learned web development tech, including Node.js for fast apps and Express.js for easy web dev. Gained hands-on MongoDB experience for structured data storage. Improved web app creation and data management skills.

EDUCATION

B.S. (Software Engineering) – SSUET (2024)

Senior Secondary (Pre-Engineering) – Jinnah Govt. College (2020)

High School (Computer Science) – Al Huda School (2018)

CERTIFICATIONS

Project Management- Great Learning   **Agile & Scrum – 10 Pearls University**
Managing Agile Scrum Project with JIRA – 10 Pearls University   **React Js – Coursera**
Front-End Web UI Frameworks & Tools: Bootstrap 4 – Coursera   **Python Basic & Python DSA – Coursera**
